

Solution Document – Order Confirmation Page

E-commerce Website Design

An e-commerce website, by definition, is a website that allows you to buy and sell tangible goods, digital products or services online.

Here we need to design a website with basic pages/features which are necessary for an e-commerce website.

Technology

We will be using Bootstrap, HTML, CSS, jQuery & JavaScript for designing the project.

Pages

Home	Products	Product View	Category	Cart
Checkout	Order Confirmation	About Us	Contact Us	Search

Important Links Used in Project

Bootstrap:

<https://getbootstrap.com/docs/4.5/getting-started/introduction/>

Font- awesome Icons:

<https://fontawesome.com/icons>

Font- awesome Icons CDN:

<https://cdnjs.com/libraries/font-awesome/5.10.0>

In the previous document, we have created “Checkout Page”, Now we will be designing “Order Confirmation Page”.

Order Confirmation Page

So, what is an order confirmation page?

The order confirmation page is a page where customers land when they complete the purchase. Its purpose is to confirm the success that the transaction went through correctly and the order was placed.

Our Order Confirmation Page-

Order Confirmation

Thankyou for your purchase!

A confirmation email has been sent to xyz@gmail.com

Order No: 123123123123

Order Status: Pending

[Return to Home](#)

Our Checkout Page code-

```
<!-- =====order_confirmation starts here===== -->
<section class="order_confirmation py-5 my-5" id="order_confirmation">
  <div class="container ">
    <div class="section_title text-center mb-5">
      <h1 class="text-capitalize">order confirmation</h1>
    </div>
    <div class="row">
      <div class="col-md-6 mx-auto text-center">
        <div>
          
        </div>
        <div>
          <h2>Thankyou for your purchase!</h2>
          <h6>A confirmation email has been sent to
<b>xyz@gmail.com</b></h6>
          <h6><span class="mr-2">Order
No:</span><span><b>123123123123</b></span></h6>
          <h6>
            <span class="mr-2">Order Status:</span>
            <span>
              <b>
                <span class="badge badge-danger">Pending</span>
              </b>
            </span>
          </h6>
          <a href="index.html" class="btn btn-primary btn-lg mt-5">Return to
Home</a>
        </div>
      </div>
    </div>
  </div>
</div>
</section>
```

```
<!-- =====order confirmation ends here===== -->
```

We have added “Success message” & “Order Number & Status” on this page. You can add more components like Purchased products, Order summary (total costs, delivery costs, taxes, etc.), Billing and delivery address, Estimated delivery time etc.
