Solution Document – Contact Us Page

E-commerce Website Design

An e-commerce website, by definition, is a website that allows you to buy and sell tangible goods, digital products or services online.

Here we need to design a website with basic pages/features which are necessary for an e-commerce website.

Technology

We will be using Bootstrap, HTML, CSS, jQuery & JavaScript for designing the project.

Pages

Important Links Used in Project

Bootstrap:

https://getbootstrap.com/docs/4.5/getting-started/introduction/

Font- awesome Icons:

https://fontawesome.com/icons

Font- awesome Icons CDN:

https://cdnjs.com/libraries/font-awesome/5.10.0

In the previous document, we have created "About Us Page", Now we will be designing "Contact Us Page".

Contact Us Page

So, what is a contact us page?

The "contact us" page name itself is a call-to-action;

The goal of contact us page is to convert by clearly and effectively presenting the method(s) of getting in touch with a company as quickly as possible.

Our Contact Us Page-

Contact Us

📞
Let's Talk
Phone: +91-9876543210

✉️
Drop a Line
Email: xyz@gmail.com

🛟
24x7 Support
Customer: 1800 101 303

Form

Name

Name

Email address

Email

Message

Message

Submit

Our Contact Us Page Code-

```html
<!-- ==============contact starts here============== -->
<section class="contact py-5 my-5" id="contact">
  <div class="container ">
    <div class="section_title text-center mb-5">
      <h1 class="text-capitalize">Contact Us</h1>
    </div>
    <div class="row mb-5">
      <div class="col-md-4 col-12">
        <div class="border border-success rounded shadow text-center p-3">
          <div class="mb-4">
            <i class="fas fa-phone-alt fa-3x"></i>
          </div>
          <div>
            <h3>Let's Talk</h3>
```

```html
            <p><b>Phone:</b> +91-9876543210</p>
          </div>
        </div>
      </div>
      <div class="col-md-4 col-12">
        <div class="border border-success rounded shadow text-center p-3">
          <div class="mb-4">
            <i class="fas fa-envelope-open fa-3x"></i>
          </div>
          <div>
            <h3>Drop a Line</h3>
            <p><b>Email:</b> xyz@gmail.com</p>
          </div>
        </div>
      </div>
      <div class="col-md-4 col-12">
        <div class="border border-success rounded shadow text-center p-3">
          <div class="mb-4">
            <i class="far fa-life-ring fa-3x"></i>
          </div>
          <div>
            <h3>24x7 Support</h3>
            <p><b>Customer:</b> 1800 101 303</p>
          </div>
        </div>
      </div>
    </div>
    <div class="row">
      <div class="col-md-8 col-10 mx-auto mb-3 my-5 py-5 border shadow">
        <h3 class="text-center mb-3">Form</h3>
        <form action="contact.html" method="POST" id="form">
          <div class="form-group">
            <label>Name</label>
```

```
                    <input name="name" id="name" type="text" placeholder="Name"
class="form-control">
            </div>
            <div class="form-group">
               <label>Email address</label>
               <input name="email" id="email" type="email" placeholder="Email"
class="form-control">
            </div>
            <div class="form-group">
               <label>Message</label>
               <textarea name="msg" id="msg" class="form-control"
placeholder="Message"></textarea>
            </div>
            <button type="submit" class="btn btn-primary
btn-block">Submit</button>
          </form>
        </div>
      </div>
    </div>
  </section>

  <!-- ==============contact ends here============== -->
```

You can add contact address, map etc. in contact us page.

Note:

We will do Contact Form validation with the help of jQuery & JavaScript in a separate document.
